Our hope is that we can combine our resources and efforts to develop material for CCSS goal stems. SIRAS Systems will help coordinate and facilitate the development of the assessments, configure, and import the files into SIRAS when complete. This project will take about a year to fully materialize. This cooperative effort benefits the outcomes of the students we serve. Users in the SIRAS family can easily and efficiently develop baselines, evaluate the student’s progress toward their goals, determine whether the goal is met and present this evidence at the annual review meetings. Your participation and contribution to this project as a SELPA would be greatly appreciated by many. All participants that assist would be added to our Acknowledgement page for professional recognition. If you are interested in assisting with this project, email Steve Ormbrek at steve@sirassystems.com.
